Logistics

- Next GC Meeting Invitation circulated for **May 25th, 2023**.
- A poll has been distributed to gauge GC member availability for an in-person meeting
- To assist with progression on GC work products, GC Members are invited but not expected to attend a biweekly touch point meeting with AIM Organizers to further discuss content and develop materials for the full GC. You will receive an invitation to this meeting every other Wednesday. Attend as you wish.

Substantive Action Items:

- GC Members did not reach alignment on a general categorization of intervention types.
- AIM Organizers will follow up with individual GC members and then propose a revised version of a categorization chart and underlying logic at the next meeting for discussion.
- AIM Organizers will provide worked examples of the accounting for the various interventions discussed to facilitate alignment on the proposed categorization
- AIM Organizers will also further develop/revise a set of definitions and taxonomy that can be the basis for future discussions amongst the GC, including:
 - Allocation vs Accounting vs Assignment
 - Attributional and Consequential Accounting
 - Others as needed
